

Allison Brandt Architect, LEED AP BD+C

An appreciation for both the arts and science as well as a love of travel influenced Allison’s desire to pursue architecture. She thrives on the problem solving process and providing solutions to improve the efficiency and constructability of her projects while balancing technical demands and design intent. Allison’s experience spans a wide range of project types and sizes. She has worked on the design and construction of education, commercial office, high rise, civic, mixed-use, and aviation facilities and draws on lessons learned from each project type to inform her design and technical decisions.

Background

Bachelor of Science, University of Notre Dame, 2001
Master of Architecture & Urban Design, University of Colorado Denver, 2007
Licensed Architect: Colorado
LEED Accredited Professional, LEED AP BD+C
