

**Amy Clark** RA, LEED AP BD+C

Having grown up in Denver, Amy has made her way back home after living away (in Chicago, New York, Italy, and South Carolina) for nearly 15 years. She knew she wanted to be an architect ever since she was in elementary school, and has passionately pursued this path ever since. Her professional experience includes projects in most every sector: high-rise residential, commercial core and shell, commercial interiors, elementary schools, community centers, government projects, hospitality, and single-family residential. For Amy, the most fulfilling part of any project is meeting the client’s needs with a project on which every member of the team has contributed to a robust and multi-faceted design solution. In addition to her work experience, Amy taught studios in Columbia University’s “New York/Paris” and “Introduction to Architecture” programs. She has been a guest juror at Columbia University, Pratt University, and the University of Illinois at Chicago, and she was invited to be a guest lecturer in The School of the Art Institute of Chicago’s “Midday Musings” lecture series. Amy believes that whether it’s within academia or the professional studio, educating the next generation of architects to be adept and creative problem solvers is a critical responsibility of those currently working in the field.

**Background**

- B.S Architecture, Clemson University, 2002
  - Calhoun Honors College, Magna Cum Laude
  - Charles E. Daniel Center - Genoa, Italy
  - Clemson Architecture Center - Charleston, SC
- M. Architecture, Columbia University, 2008
  - Graduate School of Architecture, Planning and Preservation (GSAPP)
- Registered Architect: Colorado, Illinois
- LEED Accredited Professional, Building Design + Construction
